

# WOLF WOODWORKING

## Portraits in Wood

**Transform a standard photograph  
(Regular or Digital) into a wooden treasure**

**Perfect for Weddings, Christmas, Anniversaries, Birthday gifts or anytime.**

- Photographs with good light / dark contrast work the best for portraits.
- We recommend submitting at least two to three fairly good, in focus photographs. Please indicate 1st choice, 2nd choice etc. As pictures vary in light intensity, sometimes the first choice does not make for a good portrait.
- When I obtain the portrait, I will create a pattern and return back to you for your approval.
- Once approval is given, I will proceed to create the portrait.
- All portrait pricing includes a standard wooden frame (pine). Any standard 8.x10 frame can be used to remount the portrait, as long as the depth of the picture groove is at least 1/2" deep.

### **Pricing:**

8x10 Framed Portraits (single subject)      \$ 55.00\*  
Each additional subject in picture add      \$ 10.00

\*If more that one copy is required, then take \$5.00 off each portrait price.

\*The price may vary depending on the complexity of the pattern

\*\* Shipping is extra

*For ordering information, or a free quote, please contact me at the number, email or website below.*
